Computer

Activity: 1- Write the three paragraphs using MS Word on the topic “ Life is an action, Not Contemplation”.

Life offers many opportunities to us, to succeed, if seen closely. But action is required for it. Goethe, a German philosopher rightly remarked that 'life is action not contemplation'. Even Charles Darwin proved that life is a continuous struggle for the 'survival of the fittest'.

One who is not suitable perishes -this is the nature's law . Action is necessary to adjust ourselves in any possible circumstance. Dreams are the necessary propellers but life itself is not merely dream or reverie.

A life of thought and reflection will be futile if man does not try to make it come true I real life. That does not mean contemplation is futile and vain. No! in fact all great ideals and philosophies are the outcome of great men's contemplation.

☆ Swap the positions of paragraph 2 and 3.

☆ Copy 1st paragraph and paste it in the end.

☆ Save the document with the same name as that of the topic

Activity: 2- Create a slide presentation on MS- PowerPoint on topic 'Internet'. Create at least 15 to 20 slides. Include borders, custom animation, transition, images, sounds and videos.

Note: Students who don't have laptop or PC they may have download MS Word android app from google play store in your mobile. All the students should mail the ppt on pratibhawizardy@gmail.com along with their name class and section on the subject line.
